PROFESSIONAL SUMMARY

Certified Full Stack Python Developer with hands-on experience building complete web applications using Django for both frontend and backend. Successfully developed an e-commerce platform with payment integration and a blog management system using React frontend with Django REST API backend. Eager to apply my Python and Django expertise while expanding my skills in JavaScript technologies including React.js and Node.js. Quick learner with strong problemsolving abilities and commitment to writing clean, maintainable code.

TECHNICAL SKILLS

Languages: Python, JavaScript (basic)

Frontend: React, Tailwind CSS, Bootstrap

Backend: Django, Node.js (basic)

Databases: MySQL, PostgreSQL (basic)

PROJECTS

Full-Fledged E-commerce Website

Django, Python, MySQL, HTML/CSS

- Developed complete e-commerce platform entirely using Django for both frontend and backend functionality
- Implemented user authentication system, product catalog, shopping cart, and wishlist features
- Integrated Stripe payment system for secure transactions with proper error handling
- Created comprehensive admin dashboard for product management and order tracking
- Designed responsive UI ensuring optimal user experience across all device sizes

Blog Management System

React, Django REST API, Python, MySQL

- Built modern blog platform with React frontend consuming data from Django REST API backend
- Developed complete CRUD functionality for blog posts with support for categories, tags, and media uploads
- Implemented user authentication system with role-based access control for authors and administrators
- Created analytics dashboard to track views, engagement metrics, and popular content categories
- Designed clean, responsive UI with Bootstrap ensuring accessibility across all device sizes

EDUCATION AND CERTIFICATION

Full Stack Python Developer Certification 2025

Tops Technologies Ahmedabad

- Comprehensive training in Python, Django, MySQL, and web development best practices
- Hands-on experience building real-world applications with authentication and payment integration
- Developed expertise in creating complete web applications using Django for both frontend and backend
