SCAN PORTFOLIO

## PROFESSIONAL SUMMARY

Certified Full Stack Developer experienced in automated data pipelines and web development. At **Technowire Data Science Ltd**, utilized Python, Node.js, and n8n to optimize workflows. Skilled in building scalable applications with React.js and Django, focusing on clean code and efficient backend solutions.

## TECHNICAL SKILLS

**Languages:** Python (Scraping/Scripting), JavaScript (ES6+), HTML5, CSS3

**Frameworks:** Django, Django REST Framework, React.js, Node.js, Bootstrap

**Tools & Automation:** n8n (**Workflow Automation**), Git, GitHub, VS Code, Postman

**Databases:** MySQL, PostgreSQL, SQLite

## PROFESSIONAL EXPERIENCE

### Python & Full Stack Developer Intern

Aug 2025 – Dec 2025

Technowire Data Science Ltd | Ahmedabad, India

- Developed automated **Python Web Scraping** scripts to extract data from complex websites, formatting it into JSON/CSV for analysis.
- Engineered workflow automation pipelines using **n8n**, reducing manual data entry and processing time by 40%.
- Built scalable backend microservices using **Node.js** to handle asynchronous data tasks efficiently.

## KEY PROJECTS

### E-commerce Platform

2025

Tech Stack: Django, Python, MySQL, Stripe API, HTML/CSS

- Developed a full-featured e-commerce web application with secure user authentication, product catalogs, and shopping cart functionality.
- Integrated **Stripe Payment Gateway** for secure transactions and built a custom Admin Dashboard for inventory tracking.
- Optimized database queries and implemented responsive UI design to ensure seamless performance across all devices.

### Blog Management System

2025

Tech Stack: React.js, Django REST Framework, JWT

- Architected a modern Single Page Application (SPA) using React.js interacting with a robust Django REST API backend.
- Implemented **JWT Authentication** and Role-Based Access Control (RBAC) to securely manage permissions for administrators and authors.
- Developed full CRUD functionality, optimizing API response times to under 200ms for high-traffic endpoints.

## EDUCATION

Full Stack Python Developer Certification | Tops Technologies

2025

Bachelor of Commerce (B.Com) | Surendranagar University

2022 – 2025
